

## Access the Study Tool for the ALEKS Math Placement Test:

# Go to Online Center

# Click on Test Placement Icon

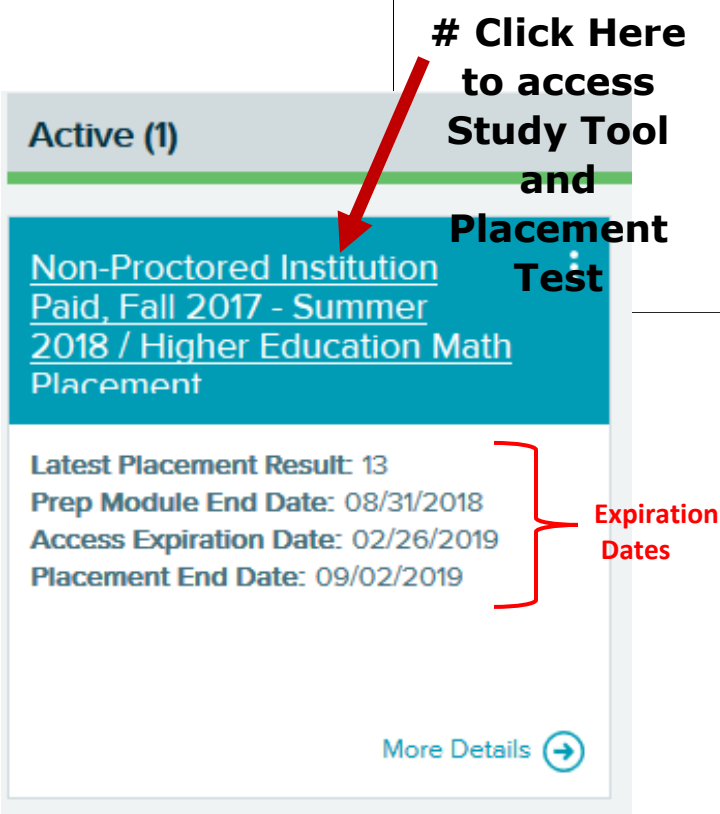

This will take you to instructions about the math placement test. Don't worry this also takes you to the Study Tool.

# Click on the green box that says Math Placement.

This takes you to ALEKS. If there are irritating dialog boxes you can get rid of them by clicking on the light bulb in the top right. It says "Select the light bulb to toggle tips."

Check the dates listed below the blue box. They will indicate when the Prep Module expires; when the option to retest expires; and the date your placement score expires. If your prep module or opportunity to test are expired, contact Jason Schueller in the Enrollment Center at 234-3106.

The screenshot shows a user interface with a grey header "Active (1)" and a blue box containing the text "Non-Proctored Institution Paid, Fall 2017 - Summer 2018 / Higher Education Math Placement". Below this, a white box lists "Latest Placement Result: 13", "Prep Module End Date: 08/31/2018", "Access Expiration Date: 02/26/2019", and "Placement End Date: 09/02/2019". A red bracket on the right side of the white box is labeled "Expiration Dates". A red arrow points from a text box to the blue box, and a "More Details" link with a right-pointing arrow is at the bottom right.
