

GRCC Wireless on OSX

Find out if the wireless icon (a signal-like icon in the upper right corner) is present

If wireless icon is present

- Click the wireless icon
- Choose the “GRCC Wireless” network from the drop-down menu
- Wait for the icon to go from gray to black
- Open your web browser of choice
- Login with your Blackboard username/password

If wireless icon is not present

- Open a Finder window
- Select “Applications”
- Run the “Internet Connect” application
- Choose “Airport”
- Choose the “GRCC Wireless” network in the network box
- Wait for the “Status” area on the bottom to say “Connected to ‘GRCC Wireless””
- Open your web browser of choice
- Login with your Blackboard username/password
