

## RE-RUNS

### PROTECT YOURSELF IN THE DIGITAL AGE

Join us for *Essential Information Security: How to Protect yourself in the Digital Age* on Monday, December 5 from 7 - 8 PM in the ATC Auditorium.

Sponsored by Phi Theta Kappa, this presentation will include information on Identity Theft, Electronic storage, Transfer of information, Passwords, Email, Wireless Computing and more.

### GRCC IN YOUR IPOD?

To date, the college has explored a variety of technology tools used in educating our students. Classroom technology has expanded from overheads to PowerPoint projectors, and more. Now we're introducing the newest form of education that goes beyond the classroom with "Pod Casting". This latest technology is simple and easy, and even downloadable to your ipod. Podcasting will allow students to download lectures via the Internet allowing access to recorded classroom lectures, they can then view or listen to the material at the time that they choose.

For more information visit the **RaiderCast Webpage** at <http://www.grcc.edu/raidercast> Or e-mail your question to the **Learning Academy** [learningacademy@grcc.edu](mailto:learningacademy@grcc.edu)
