

# Machinist/CNC Technician

Train in the only high quality machinist/CNC program in west Michigan. In just five months you will be qualified to begin a career as a programmer, machinist, lead machinist or CNC operator.

Steve Henkelman has 35 years of experience in the industry and is NIMS certified in eleven categories. Our training program offers a hands-on, real world experience where you will learn:

- Print reading
- Mathematics
- How to use the machinist handbook
- How to use hand tools
- Bench work
- Layout
- Manual machine tool operations
- Precision measuring
- Computer numerical control (CNC) and conversational machine tool operations
- Computer operations
- Teamwork and communication skills

## Certificate and credential options

Upon completion of this program, you will have earned a GRCC Certificate of Completion and 13 credits toward a two-year associate degree.

## Job Placement

GRCC has the best reputation among employers for supplying West Michigan with work ready individuals in this high demand sector.

## Employment Outlook

According to the Department of Technology, Management and Budget for the State of Michigan, there will be 1,279 openings in this field annually, which equates to 19 percent job growth from 2014 to 2024. Average wages per hour are \$15 - \$24.
