Letter from the President

Grand Rapids Community College launched the second phase of its strategic planning process with the 2014-18 Strategic Plan during 2014. Since then, much work has taken place during years one to three of this four-year plan, with some projects being completed, others combined, and yet a few more closed. These changes reflect how GRCC maintains its nimbleness to continually improve the work faculty and staff do to address the needs of the West Michigan community. Outlined within this report are the strategies, action projects, and indicators of success that will continue to drive our work during the coming years.

That includes reviewing in detail college initiatives and processes to identify strengths and challenges, and developing solutions that move the college forward. Regular monitoring reports to the Strategic Leadership Team and Board of Trustees allow us to track the plan and move the needle in a positive direction through a series of eight success indicators.

The 2014-18 Strategic Plan organizes our work under three college ends:

- Student success pathways
- Workforce pathways
- Transfer pathways

Under each college end, strategies have been developed to guide college action projects. There are a total of six strategies and 17 college action projects.

The strategies are:

- Access and inclusion
- Persistence and completion
- Student support
- Student learning
- Knowledge and infrastructure
- Student pathways

Please review our 2014-18 Strategic Plan. It is the map that helps us chart the course for GRCC’s future. I extend my thanks in advance for all the work our faculty and staff will do to move these initiatives forward and improve the learning process and college experience for our students. GRCC has been – and will continue to be – the best choice for West Michigan residents as they embark on their educational journeys.

Sincerely,

Bill Pink, Ph.D., President
