Report Notes

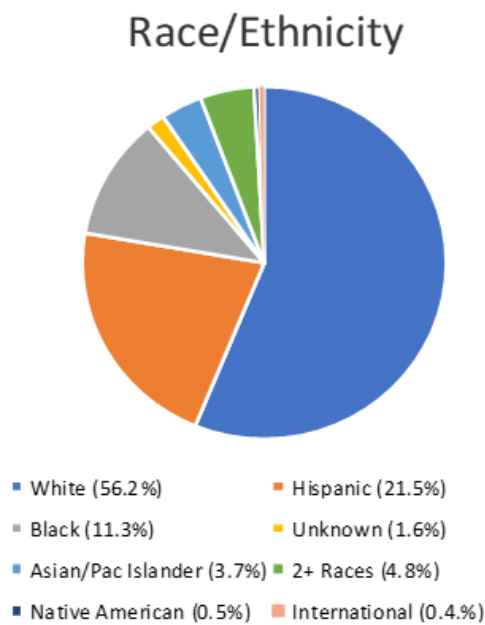

- Data is collected from PeopleSoft for credit information and a combination of Continuity and PeopleSoft for non-credit information. If a source other than these systems is reported, it will be noted.
- The timeframe of reference for data is the fall count date, September 4, 2025, unless noted otherwise.

Fall 2025 Executive Summary

- We achieved 97.37% of our Fall 2025 enrollment stretch goal of 12,800 students and exceeded the Fall 2024 enrollment figures by 0.43% for headcount, 4.69% for billing units, and 4.56% for credits attempted which has been acknowledged and celebrated. The enrollment growth since Fall 2022 continues and has been observed nationally for community colleges according to several higher education publications. Some notable observations are:
 - There was observed growth for both students age 18-24 (2.68%), more specifically students age 18-20 (7.41%), students age 25-29 (7.24%), and students attending GRCC full time, or attempting at least 12 credits (17.38%), which could be attributed to the Michigan Achievement Scholarship, continued presence and support from the Michigan Reconnect Program, or the expansions of our Promise Zone program;
 - Indistrict billing units increased significantly over last year by 6.89%, which could also be attributed to some of the initiatives mentioned above;
 - Enrollment for students self-identifying as Hispanic/Latino/Latina grew 7.89% from Fall 2024, continuing their upward trend since Fall 2020;
 - Enrollment for students self-identifying as Black/African American grew 11.37% from Fall 2024;
 - Enrollment for students self-identifying as multiple races (2+) grew 10.65% from Fall 2024
 - We saw growth in new students of 5.78% from Fall 2024;
 - There was slight growth in students attending through Early College programming, up 1.04% from Fall 2024;
 - We saw a significant growth in Lakeshore Campus enrollment of 16.26% from Fall 2024 – most notably, GRCC achieved the enrollment goal of 1,000 students enrolled in courses at the Lakeshore Campus;
 - We saw growth in students enrolled in classes held at Leslie E. Tassell MTEC campus of 4.21% from Fall 2024;
 - We saw growth in both job training and customized training enrollment of 5.0% and 23.8% respectively;
 - The fall-to-fall retention rate of first time, degree seeking students increased to 52.7%, which is much closer to our institutional goal of 55% by 2028.
- For as much growth as we've seen, there are some areas of opportunity that could be of focus for future enrollment planning.
 - There was a decrease of 10.69% in guest students from Fall 2024, which has continued since Fall 2023;
 - There were decreases in students aged 21-24 and 30-60 (5.16% and 11.43% respectively) since Fall 2024;
 - Our occasional student enrollment (defined as students who experienced an enrollment gap at GRCC between major semesters) is down 13.81% which is still a concern due to less significant increase in returning student enrollment;

- The recent FAFSA redesign continues to provide significant challenges for both higher education, students, and their families. GRCC continues to mitigate the difficulties, but it is worth acknowledging the potential impact that the FAFSA implementation may have had on enrollment;
- Although not definitively measured, the drastic political shifts have created challenges for higher education.
