Michigan Job Training Grants - During 2010, the College became involved in the Michigan New Jobs Training Program. The Michigan New Jobs Training Program was created by State of Michigan Public Acts 359 and 360 of 2008 and provides the ability for community college districts to enter into agreements with employers to (1) provide education and training to workers in order to create new jobs and (2) to establish a funding mechanism to pay for the education and training. In connection with this program, the College has entered into agreements with various local employers for the purpose of establishing projects to educate and train certain persons employed in new jobs. The local employers prepay training costs to the College and the College subsequently issues noninterest-bearing revenue bonds payable to the employers equal to the prepayments. The employer remits state income tax withholdings for these new employees directly to the College. The College then remits these withholdings back to the employer on a quarterly basis to reimburse the company for the costs of training, thus reducing bonds payable. As of June 30, 2017, the College has outstanding bonds payable to various employers of $1,758,011. The bonds mature at various dates through 2030.

Accrued Employee Leave - The College provides termination benefits upon departure from the College resulting from unused sick time and years of service and defined by each respective labor contract and administrative policy under the vesting method. Under the vesting method, the liability is accrued for employees based on the amount eligible and certain assumptions are used to determine probability of reaching the criteria required for eligibility. Included in the current portion of the accrual is earned but not used vacation and amounts to be provided to employees that will be retiring in the upcoming fiscal year.
